unibox<sup>®</sup>  
exhibition system

Introducing the range of Metro counter kits, designed to enhance your retail or exhibition environment and display your products in style.

//the choice of designers

Here at United Aluminium we understand that every retail and exhibition environment is unique, so we have created a range of Metro counter kits for exhibition, event and retail environments that allow you to create your own portable or static configurations.

The range consists of 9 individual kits, each designed and manufactured to the highest of standards using our durable and sustainable aluminium system. To give more flexibility and the opportunity to configure the kits to complement your environment, each kit has options on assembly status, infill panels, counter tops and feature accessories.

## //metro counter kits

Whether you are a designer, retailer, stand builder or shopfitter this versatile counter kit range offers a stylish solution with attention to detail that is second to none.

Our designers are on hand to assist you with your counter kit configurations or speak to us about bespoke solutions on 0161 277 6020.

# //the range

Please refer to our technical specification sheets at the back of this brochure, for details of the standard finishes of both the infill panels and counter tops.

For all bespoke requirements, please contact our sales team on 0161 277 6020 for further information.

Simply decide on your required kit and then choose from 3 different assembly options:

1. Fully assembled
2. Kit form - semi - includes CNC prepared tops, floors & shelves.
3. Kit form - base - tops, shelves & infill panels not included

## //accessories

A wide range of Unibox accessories are available to enhance your Metro counter kits. They provide the perfect tool to help with brand building events and experiential marketing programmes.

All our accessories are designed and manufactured in the UK to the highest of standards and complement the contemporary look of the Metro counter kits.

### Choose from:

- LED feature lighting for illuminated top stack
- Acrylic and steel literature holders available with left, right and centre brackets
- 12 volt Mini track spotlight kit
- Feature lighting
- LCD monitor screen bracket
- Lockable castors.

## //features & benefits

- Designed using the Unibox Modular Aluminium System which is easy to re-configure into straight or curved lines, swiggles L or U shaped islands.
- Universal component design to complement the Metro graphic display kits
- Infill panels that can be readily changed, especially useful for brand or style alteration.
- Supplied with a full and comprehensive assembly guide, allowing for quick and easy construction and break down.
- Fully lockable, sliding or hinged doors (dependant on model), offering a secure storage area.
- A robust yet elegant design to look good in any environment.
- Adjustable tilt-glide feet supplied as standard, allowing for uneven floor surfaces, whilst maintaining stability.

Counter top options can be CNC machined from a multitude of materials ranging from solid timber, 10mm acrylic or glass – you can even supply your own tops. All are expertly fitted to give a durable, strong yet elegant finish to your chosen counter kit.

# //endless possibilities

In addition to and to complement our counter display kits the Unibox Modular Aluminium system has also been employed in the design and construction of bespoke counter units.

From an initial design or idea our team of experienced product designers can assist in the creation of spectacular counter units. Introducing coloured acrylic panels / timber effects / glass finishes, not to mention graphic / back-lit panels to emphasise your corporate image or brand.

Create your own design or visit our gallery at [www.unibox.co.uk/counters](http://www.unibox.co.uk/counters) for inspiration.
