introduction

# //inspire

Used as key features or stand furniture, the Unibox Stand Construction System gives you easy to use modules and structural shapes that are ideal for product placement through to graphic display, the only limit is your imagination.

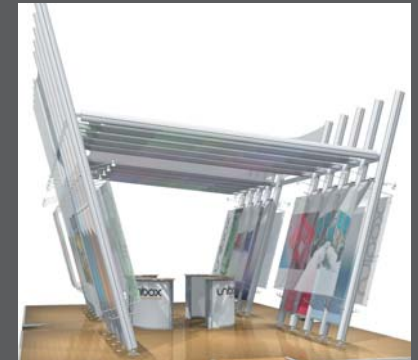

Stunning light walls up to 6 metres high create a dramatic effect.

Integrate screening and door modules to create meeting rooms and secure storage areas.

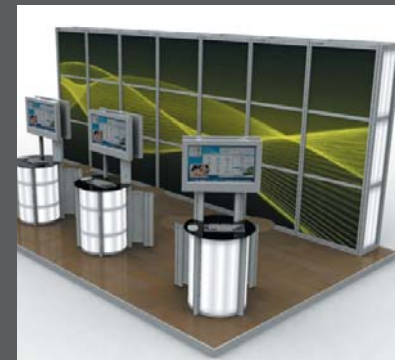

Create impressive structural forms to add impact and style.

go create

the only limit is your imagination

- creative freedom
- versatile configurations
- easy to use modules

Demonstration pods and counters complement your exhibition structure.

Design exhibition stands where the only limit is your imagination.

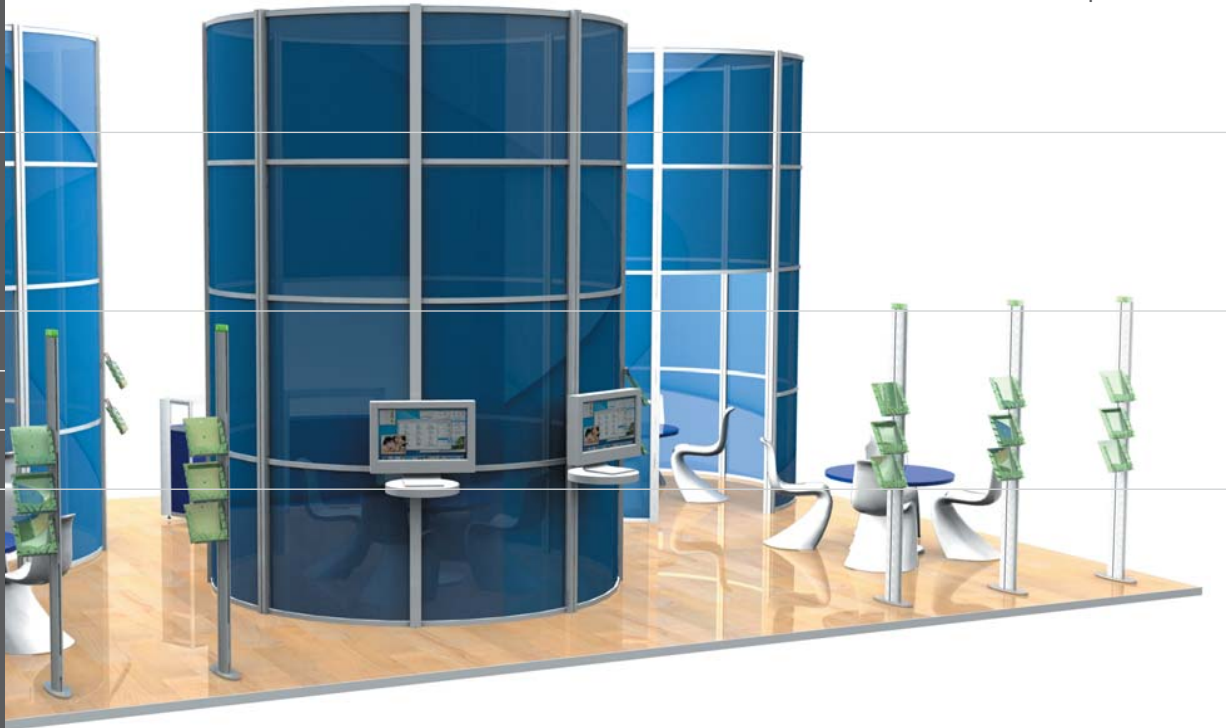

Combining exciting materials and engineering craftsmanship the Unibox Stand Construction System delivers a memorable result every time.

//creative freedom

The Unibox Stand Construction System provides you with creative freedom through its standard range of profiles and accessories. The limit to which you can develop designs and create stunning structures is equalled by our commitment to fulfilling individual requirements.

# //go create

From the word go, the Unibox Stand Construction System supports you by combining clear component information, CAD support tools and a technical resource department allowing you the freedom to create.

Lighting and illumination.

Using Metro Designer Display Kit - compatibility across the Unibox range.

Being bold with light walls

The Unibox Stand Construction System is a set of ready to go parts. We hold in stock pre-cut lengths for beams and posts, hold pre-packed door kits and can supply quickly to maximise the time you'll have to deliver the final event.

//attention to detail

//accessories  
//design features

The range of accessories available is key to the Unibox Stand Construction System's ability to meet every conceivable need, and with exciting design features and pre-designed modules, stand concepts can be generated quickly.

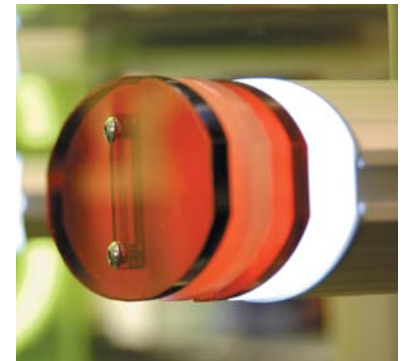

With the Unibox range of counters and reception desks through to cantilevered and light wall configurations, designers and stand builders have simple solutions of the highest quality.

# //system

With a choice of connection systems and the minefield of not knowing if you've allowed for all the parts, United Aluminium run an induction programme for all its clients. From designing to ordering, the programme supports you through:

CAD parts library
example designs
Excel spreadsheet ordering system
samples and demonstration kits
on-site support - technical advice department
quotations on request

Glass and graphic panel connection systems.

Articulated knuckles and feature beams.

Access and meeting room doors.

how it all works

adding another dimension to your exhibition

Literature display.

Floor mounted articulated knuckle joints.
